

Lethal Fentanyl Alert

Fentanyl may be in your drugs. It has been found in heroin, cocaine/crack, oxys, crystal meth and other drugs.

Overdoses are happening in Victoria. Deaths are too common.

BE DRUG SMART

Don't use alone

Don't mix drugs (including alcohol)

Try a small amount first

Have an overdose response plan

Learn about the overdose antidote naloxone (*Narcan)

KNOW THE SIGNS OF AN OVERDOSE:

Severe sleepiness

Slow heartbeat

Cold, clammy skin

Trouble talking or walking

Slow, shallow breathing
or snoring
